19 October 2021

Great afternoon !

- More than 150 registrations
- More than 90 persons on line all the time from Europe, North America and Asia
- 18 presenters from industry, vendors and our associations

STEP
AP242 **DAY**

2021

Who was there ?

What did we learn ?

- STEP AP242 is
 - a backbone for many capabilities
 - enabling digital continuity for all type of companies with their partners in design and manufacturing
 - quality built-in
 - able to work with other standards for specific use cases
 - evolving towards the Digital Twins
- Very good implementation levels from the various vendors
- New AP242 capabilities one the way with shortened lead time
- Thanks to proven efficiency of Interoperability forums

See you next year in real life...

*the digital twins shall be based
on real life interactions*
